Most models, some exceptions apply	8CH-502 C8350 6CH-940 C4335

Filter cartridge model numbers are usually molded into the plastic, either on the top or bottom. If you can't find the model number, just bring in your old one and we can find a match. Please remember to dry the old filter out before bringing it in.

We can order in nearly any filter for different Hot Tub brands, old models, new models, or anything in between.
